

# Good Vision

February 2024

Members of our GoodVision international team visited Liberia in December 2023. It was thrilling to see the office of our newly formed independent NGO, GoodVision Liberia, in Monrovia. We spent several fruitful weeks helping develop new operating systems, conducting optical trainings, meeting colleagues at other NGOs also providing vision and medical services, and meeting with the Liberian government officials. We also took time to celebrate our accomplishments and the team's hard work over a lovely holiday lunch together (see photo above).

## **A busy end to 2023 and a rolling start to 2024.**

Thanks to you, our supportive community, we raised all the funds needed for a brand new minibus! This will enable our team of GoodVision Technicians to safely reach more people across Liberia and transport the equipment needed to provide high quality eyecare and deliver more eyeglasses. A special thanks goes out to our challenge donors who matched every dollar donated.

**In case you missed it...**

In 2023 GoodVision Liberia provided more than 5,500 free eye exams. Access to vision care is virtually non-existent for most Liberians, so we provide vital vision care services. We know, with your support, our impact will grow in 2024.

**We've been busy here in the US as well, growing our Board of Directors!**

We are delighted to welcome Cira Collins to our board! Cira has a unique blend of experience in both the optical industry and international development. Cira has worked in virtually every sector of the optical industry, is a national recognized speaker on the optical circuit, has a Masters in Public Health and has lived in Africa. We are honored to have Cira's passion and knowledge to help move our organization forward.

**Coming up:**

We're headed back to Vision Expo East in NYC on Mar 15-17! Stop by our booth (#363) and see firsthand how GoodVision glasses are made. We look forward to reconnecting with old friends and making new ones.
