

Good Vision

March 2024

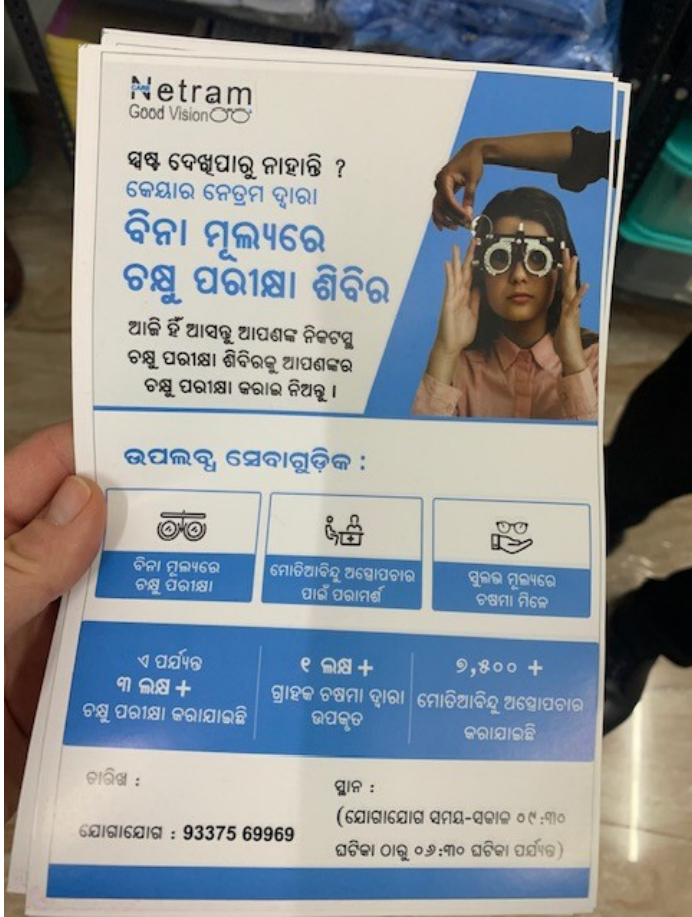

Another Successful Vision Expo East

Vision Expo attracts all segments of the vision industry. Business people in suits, engineers explaining ophthalmic equipment, stylish fashion influencer types, and serious students of the three O's (ophthamology, optometry and opticianry) can be seen bustling around. In the midst of all of this, GoodVision was there, demonstrating our bending technology and sharing news about our global projects that address the needs of people who lack access to basic vision care. It is not lost on the Vision Expo attendees that our simple solution can transform lives. Eye care professionals from around the world were genuinely amazed at what GoodVision is doing and how a piece of wire can be transformed into a pair of glasses.

We had many meaningful and exciting conversations with potential supporters. We look forward to seeing the outcome of our participation at VisionExpo 2024!

This year we had the good fortune to be joined by Board members Blair Wong, Dibby Bartlett, and Cira Collins, and bender extraordinaire Brian Wong. We cannot thank them enough for helping staff the booth, engaging and recruiting interest in our work, finding and meeting potential supporters, and in general contributing to so much energy and buzz about GoodVision.

A visit to Care Netram

GoodVision USA's Executive Director, Jennifer, is currently in Bhubaneswar, Odisha state, India visiting Care Netram, the GoodVision global project there. Care Netram was established in 2017 and has provided 229,000 free vision tests! This large, successful organization has a wealth of experience to share with younger operations, including GoodVision Liberia.

Stay tuned for more updates from Jennifer about her trip.

Strengthening the Vision Industry!

Blair Wong, who has been on The Board of Directors for GoodVision since the beginning, was recently the key note speaker for Opticon at Vision Expo East. AND our newest Board Member, Cira Collins, gave the keynote speech at the Opticians Association of America's Leadership Conference. We are so fortunate to have leaders in the vision industry on our Board.
