

THE BIGGEST GLOBAL PROBLEM HIDING IN PLAIN SIGHT

950 million people around the world are needlessly blind or vision-impaired from conditions that cost less than \$10 to fix, making preventable vision loss the largest unmet disability in the world.

1:1,000,000 vision care provider to population ratio in the global south (1:8,000 compared to the US and Europe)

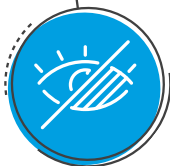

\$411 billion is lost in productivity every year due to preventable vision loss

A pair of glasses can increase work productivity by **35%**

Children lose **2-4 months** of learning each year because they don't have access to glasses

Cataracts are the leading cause of vision loss worldwide, responsible for **51%** of global blindness - the majority of which is preventable or treatable

LEARN HOW **GOODVISION** IS LEADING A **MOVEMENT** TO CHANGE THE WAY THE WORLD SEES.

Cost-effective and scalable solutions to the global vision care crisis exist, access doesn't

**SINCE 2014,
GOODVISION
HAS...**

Produced glasses locally
for only **\$1 in materials**

Worked in **11 countries** across
Asia, Africa and South America

Conducted over

2.95 million free eye screenings

Distributed over

1.1 million glasses

Created over

575 permanent jobs training
local technicians to conduct eye
tests, manufacture glasses, and
provide community vision care

Coordinated over

17,000 cataract surgeries

Every \$1 invested in global vision care returns **\$28 in economic benefits**
making this one of the most effective and impactful global interventions

Join the **Global Vision Movement** and
get exclusive insights on global vision
innovations and impact stories.
